#### 3. Scope of Services

The selected vendor shall provide:

- Install recording, monitoring and data storage from video feeds from various locations on the inside and outside of facility.

#### **Recording equipment**

- Be capable of being connected via wi-fi connections or hard wiring.
- Capture video images from all vantage points from within facility and complete coverage of surrounding outdoor areas simultaneously.
- Store and maintain recorded footage for a period of 7 days.
- Provide remote access to all cameras using portable devices such as cell phones and tablets.
- Be able to produce images with quality comparable to, or better than 4K resolution, for easy identification of captured frames 24 hours a day.
- Be mounted to a concrete and wood constructed building with hardware capable of withstanding weather conditions conducive to the Florida southwest Gulf area.
- Installation and secure mounting of cameras at designated locations using appropriate electrical enclosures, specialty brackets, and weatherproofing solutions to ensure long-term performance and protection. Cable ends will be properly terminated per EIA/TIA 568 Standards.
- No equipment specified may be on the Federal Governments list of prohibited manufacturers. See footnote at end of RFP

## **Cabling**

Installation of structured network cabling for security cameras, including routing through walls, ceilings, and floors as necessary. All cabling will be installed per ANSI/TIA, EIA, and ISO standards, properly labeled, and supported according to NEC (National Electrical Code) requirements. Proposal assumes all cable runs to cameras are in compliance with distance limitations based on switch type (325' for standard PoE devices or 700' when using an SCW device with extended transmission).

## **NVR Provisioning & Networking**

Installation of the Network Video Recorder (NVR), switches, patch panels, and all necessary networking equipment at the agreed-upon location. Established connectivity to our ISP will be provided. We will provide adequate rack or wall space for the physical security equipment, along with access to sufficient power.
